

After Action Reports

The following documents you will find within this folder (After Action Reports) will be a template After Action Report (AAR) and sample AARs for your review. It is encouraged to use the template AAR in creating your own AAR. Additionally, within the folder, *Improvement Planning*, you will find a sample Improvement plan matrix that you may use to help you create an AAR. The Improvement plan should be attached to the AAR.

Please remember that a copy of the AAR must be sent in with exercise expenditure costs in order for your municipality/agency to be reimbursed for the exercise.
