

## Exercise Participant List

**Note:** *The participants selected to attend the exercise should be based on the scope and type (i.e., seminar, workshop, tabletop) of exercise, as well as the scenario and/or subject. For example a tabletop exercise with a scenario involving a biological agent should include participants from the medical and public health communities. An exercise involving an agricultural terrorism scenario should involve participants from the agricultural and veterinary fields. This list is not all-inclusive.*
