## **OUR MOST FREQUENTLY ASKED QUESTIONS**

WASHINGTON – The NIMS Integration Center’s most frequently asked questions, which are posed primarily via e-mail, focus on required NIMS training, lost or delayed NIMS/ICS training certifications from the Emergency Management Institute, and NIMCAST temporary passwords.

In the interest of providing the information most relevant to our audiences we have decided to repeat those questions and our answers in this *NIMS Alert*. We also urge you to check our FAQ site, which is directly accessible from the NIMS Homepage at [www.fema.gov/nims](http://www.fema.gov/nims); it is updated frequently based on your questions.

### **Who has to take NIMS and ICS training?**

All federal, state, local, tribal, private sector and non-governmental personnel with a direct role in emergency management and response must be NIMS and ICS trained. This includes all emergency services related disciplines such as EMS, hospitals, public health, fire service, law enforcement, public works/utilities, skilled support personnel, and other emergency management response, support and volunteer personnel, as follows:

#### Entry Level

- FEMA IS-700: NIMS, An Introduction
- ICS-100: Introduction to ICS or equivalent

#### First Line, Single Resource, Field Supervisors

- IS-700, ICS-100 and ICS-200: Basic ICS or its equivalent

#### Middle Management: Strike Team Leaders, Division Supervisors, EOC Staff, etc.

- IS-700, ICS-100, ICS-200 *and in FY07, ICS-300*

Command and General Staff; Area, Emergency and EOC Managers

- IS-700, ICS-100, ICS-200 *and in FY07, ICS-300 and ICS-400*

**What about elected officials?**

The NIMS Integration Center strongly recommends that all elected official who will be interacting with multiple jurisdictions and agencies during an emergency incident at the minimum, complete IS-700: NIMS, An Introduction and ICS-100: Introduction to ICS. These courses provide a basic understanding of the National Incident Management System and the Incident Command System. Everyone directly involved in managing an emergency should understand the command reporting structures, common terminology and roles and responsibilities inherent in a response operation.

**I still have not received my IS-700 training certificate. Who can I call?**

Contact the Emergency Management Institute's Independent Study Office at 301-447-1200.

**I've tried logging on NIMCAST and my password doesn't work. What can I do?**

If you have received a temporary password you will need to log into your account within 24 hours and change your password. If it has been more than 24 hours since you received your password, you can have a new password e-mailed to you by clicking on the "Generate a new temporary password" option on the NIMCAST login page. Remember, new passwords must be at least eight characters long and must contain at least one of each of the following: lower case character (a-z); upper case character (A-Z); special character (!, @, #, \$, %, etc ...); and a digit (0-9). Be sure to input your password exactly, it is case sensitive.
